The Revenue Falling Off.

New York Tribune.

WASHINGTON, Sept. 20, 1878.—The effect of the agitation over the reduction of the tobacco tax last session is still being felt in the sales of tobacco. The returns of the collectors of internal revenue show that during the month of July last, the receipts from tobacco taxes were $3,899,078.23, being $693,691.97 more than was collected from the same source for the corresponding period last year. This increase is accounted for by the fact that during the agitation of the question of reduction, purchases of the commodity were insignificant. The quietus put upon the question by the adjournment of Congress gave an impetus to the sales during July. These heavy transactions have not been kept up. There is sufficient data on hand from the collectors, for the month of August, to show that the receipts from internal revenue for that month are $500,000 less than for a similar period in 1877, and that the receipts from tobacco have been correspondingly diminished. The commissioner will oppose a reduction of the tax at the next session, on the ground of the necessities of the government.

Washington Notes.

By Telegraph to the News.

WASHINGTON, D. C., Sept. 21.—The Chinese minister formally advised the Secretary of State of his arrival, and requested him to confer with the President so as to designate a time for the presentation of his credentials. The President will return Wednesday or Thursday, and the presentation will probably take place Friday.

The Navy Department has received from Lieut. Commander Kells, at New Orleans, a copy of his open letter to Senator Kellogg, accompanied with explanatory remarks, denying emphatically that he was intoxicated when he wrote it, and Kellogg's other charges against him. No action will be taken till the Secretary returns, and hardly any then.

Gambetta's Impolitic Speech.

By Cable to the News.

LONDON, September 21.—A Paris special says that notwithstanding the approbation of Gambetta's speech met with on the part of the Republican press, it has made Moderate Republicans uneasy. It is not thought the programme will contribute to success in the Senatorial elections, for it opens up a field to discussion in which the adversaries of the Republic will find it easy to exaggerate the orator's words, and show that the Republic proposes to lay hands on every existing institution, in a revolutionary sense. The Journal des Debats says it has nothing to urge against M. Gambetta's opinion about the conversion of five per cent. rentes, but his moral objections to such a course are not the only nor strongest objections.

News from Georgia.

Washington Post.

Hon. Julian Hartridge, Democratic Member of Congress from Georgia, arrived in the city last night, and after shaking the *Post* cordially by the hand was asked for news from his State. "No special news. Everything is quiet and the compaign is progressing very satisfactorily,"

"What of the independent movement?"

"There is no independent movement in Georgia. In two districts there are independent candidates for Congress, and that is all there is of it."

"The Radical papers are counting on big things from the Independents of your State."

"Then they are counting without their host. Even should the two Independent candidates be elected, it would not help the Radicals. for both of them are staunch Democrats, and would vote with the party on every question. Dr. Felton may be elected, but the indications are that he will be defeated this time. The Independent manifestation has been just strong enough to incite the Democrats to energetic action. and the party never was in better trim. In the Ninth district [Bell's) there is not the slightest probability of the success of the Independent candidate, In my district one man talked of running independent, but I don't think he will. They have nominated a good man in my placef and we will elect him."

"Then you think there will be a solid Democratic delegation from Georgia?"

"There's no doubt of it, there will not be a break in the delegation."

"Will General Gordon be re-elected?"

"Oh, yes; he will not have any formidable opposition. A majority of the members of the legislature are under instructions from their constituents to vote for him. You know the present legislature was elected under the new constitution and serves till 1880. Gordon is immensely popular and, as I said, will be re-elected without any real opposition."

"Who is the preference of Georgia Democrats for President in 1880?"

"Thurman; Thurman is very popular down there, and if the convention were held now he would undoubtedly have the Georgia delegation,"

Offers to Nurse the Yellow Fever Patients.

The Charlotte Observer says: Mess H. C. Williams and D. W. Waters yesterday offered through Mayor Smith to go to Memphis to nurse the yellow fever patients, provided they could get transportation. They expected to have left last night, but the arrangements for their transportation could not be made in time. It seems that the r ilroads now require not only the certificate of the Mayor of the cities from which persons who propose to act as nurses come, but also a letter or telegram from the president of the Howard Association accepting the tender of their servies.

THE SECREST TRIAL.

Friday's Proceedings----State Closes Testimony---Chain of Evidence Complete. Full Identification of Remains--

Special Correspondence of the News.

MARION, Sept. 20.

The State closed testimony and rested her case to-day with the examination of Mrs. B. W. Clark, of Union, wife of the chief tenant of Mrs. Maggie Stevenson the missing lady, and who occupied her dwelling house at the time she left home in February, 1877, and throughout that year. Mrs. Stevenson left her trunks and household goods with Mrs. Clark, taking only two or three dresses with her in a carpetbag. The witness was familiar with the clothing of the lady and child, and recognized the articles in court as belonging to them. A piece of one dress, Mrs. Clark stated was the identical goods of a dress pattern which she brought from Georgia and she sold to Mrs. Stevenson two days before she left home, which she assisted her to make and which the lady wore away. Identified a piece of a calico bonnet, white and black stripe made with selvidge ruffle; also a piece of a striped flannel sacque which Mrs. Stevenson wore away. Recognized a piece of the little girl's dress, red calico, black check; mother and child's hair, and shoes of both, the lady wearing black cloth gaiters and the child copper-tipped leather shoes, all of which articles were found in and around the grave discovered on the 12th of last January, on the Burke and Catawba line. The blanket balmoral, or underskirt, made of a bed blanket, Mrs. Clark had never seen, but had heard Mrs. Stevenson say she wore such an article of clothing.

THE DEFENCE.

Col. Geo. N. Folk, of Caldwell, on behalf of the accused, stated in brief the grounds upon which the defence rested, denying the allegation of the death of the missing woman and child; that she had come to a violent death; or, if these facts were established, that it was by the agency or at the hands of the prisoner at the bar. But they expected to prove that the woman and child had been seen alive subsequent to the time of her alleged disappearance, and that they were now living. They would also fully account for the prisoner, and prove by witnesses who were with him, where he was and what he did with himself from the time he left the house of Mr. Alonzo Kline, on the morning of the 6th, to dinner time on the day of the 7th, when Secrest, the accused, appeared at the house of D. B. Wall, near Morganton, a gap which the defence maintained that the State had not undertaken to fill, and a link in their chain of circumstances the prosecution could not supply.

INTRODUCTION OF WITNESSES.

Dr. R. C. Pearson, of Morganton, was called for the defence, as an expert. Colonel Folk conducted the examination. Dr. Pearson testified that the bones exhibited were those of two human beings, an adult and a child. From those before him he could not determine the sex of either. There were parts of two skulls, the frontal bone of a grown person, and different portions of the cranium of a child; rib bones of a child; shin bones and shou'der blade of an adult; bone of fore-arm of an adult; bones of arm, and bone of hand or foot, and collar bone. There was but one entire bone in all. They had been broken and scattered, and it was the opinion of the doctor that they had been crunched by animals, as some of the bones showed signs of having been gnawed. All the soft parts of the bones and body had entirely disappeared, and those exhibited were clean but not bleached white nor honeycombed. It was not the opinion of the doctor that these were the remains of persons buried for any long period, for had they remained undisturbed by animals, those of the child especially would have disappeared entirely in three or four years. Whereas all the bones of both were in a perfect state of preservation, saving the soft parts which were missing and the fractures which had evidently been made by the voracious animals which had invaded the grave. Dr. Pearson stated that the chief agencies of decomposition are the natural elements, heat, air and water; that periods of decomposition varied according to conditions, that buried as this woman and child were said to have been, uncoffined, in a hole fifteen to eighteen inches deep, the bodies undisturbed would have disappeared entirely in from three to six years; that the period of decomposition of bodies buried in the usual manner in ordinary coffins was from six to ten years. Bodies of fat persons decompose faster than lean ones. Pregnant women increase in flesh, as a rule, and from all the circumstances detailed, of burial in shallow place while animal heat was in bodies, unprotected save the ordinary clothing, the usual spring weather and summer heat succeeding, woman five months pregnant and child young, all the conditions for rapid decomposition were favorable.

PROVING WOMAN AND CHILD ALIVE.

Franklin Belk was introduced by the defence to prove the woman and child alive. Said that few days before Christmas 1877 he came by rail from Mississippi, and stopped for dinner at Chester, South Carolina. There a lady and child got on the train and rode to Charlotte. He did not know her—had never seen her. He did not swear that she told him her name, but said she was from Union. He talked with her and got water for the child, and at Charlotte, where they arrived after dark, she got off and he saw no more. He attempted to give a description of her that would answer the description given by other witnesses of the woman. On cross examination by the State he broke down entirely. Said the woman had dark light hair, and then said light dark hair and blue eyes. Child he said had lighter hair and yellow eyes. He was contradictory, halting and indefinite and altogether unsatisfactory and clearly attempting to tell a manufactured tale.

Sue Adams, a colored woman, habeas corpused from Charlotte jail where she was serving out a term for stealing, pretended to have seen Mrs. Stevenson in Charlotte in January last, but her statement was not such as to impress the truth upon those who heard it. She said that the lady who told her that her name was Mag Secrest, went to her house to inquire for Jane Holbrook, that she did not know Jane. The lady had a little girl, three or four years old. Asked the negro if she knew her. Said she did not, but that she favored the wife of Captain Secrest in Charleston, and then she said her name was Mag Secrest. Cross examined the witness said that this was a short fat woman, and that Mrs. Captain Secrest in Charleston was tall, spare and thin. At adjournment the defence had pretty nigh broken down. The last witness put up to prove that Mrs. Stevenson was living said he saw her in Charlotte in January last, or thought he did, but now he thought he was mistaken, and the State let him come down without cross-examination. Trial will run into next week.

The Discussion at Durham.

Correspondence of the News.

DURHAM, N. C., Sept. 21.

Your correspondent, in accordance with instructions, reported to W. T. Blackwell.

The Hon. Jos. J. Davis and the Republican candidates, H. N. Brown and Moses A. Bledsoe, were present, on yesterday.

The discussion had its usual course. The speech of Mr. Davis made a splendid impression. Bledsoe spoke in favor of Davis, as against Turner. Brown was as crazy as usual, and your correspondent gave him a half dollar towards the hundred dollars he wants to raise to pay campaign expenses.

Your correspondent was informed, by the most prominent merchants and citizens of the town, that Jo. Turner would not get ten votes in the town, and "Buck" Blackwell says that he will pay $100 for every vote he gets over ten.

Leaving politics, I'll have to say something about the cleverness of our Durham neighbors, though I know that the compliment was intended for the News. The carriage and horses of Mr. Blackwell were, during his stop, at the service of your correspondent, and any and everything that would help him pass a pleasant hour, was at his disposal.

The business of Durham is very good just now, and in this connection, I will mention three orders for tobacco, which were received by cable a few days ago by the largest firm in Durham. One was from London, one from New South Wales, and the other from Edinburg, Scotland,—the three amounting to something over $8000.00.

The ball given by the club of Durham, last night, was a success. Miss Green appeared to be the belle. We fear that we will lose one of our most respectable countrymen, (Thos. G. Hill,) who was among the invited guests of the club. S. T. G.

NEWS NOTES.

Commerce between the United States and Mexico is steadily increasing.

The Chinese residents of San Francisco have subscribed $1,200 for the benefit of the yellow fever sufferers.

The Committee on Public Works in New York have made a favorable report of General Spinola's project to heat the City of New York with steam. The report will be acted upon at the next meeting of the Common Council.

The Dean and Faculty, [illegible] dents and the janitor of the Homeopathic Medical College at Cleveland, Ohio, twelve persons in all, were arrested Tuesday, for body snatching. The body was found in a tank underneath the floor in the college building, but the Faculty disclaimed all knowledge of the affair.

The total losses to creditors of all the National Banks during the last sixteen years, upon five hundred millions of capital and eight hundred millions of deposits is estimated by the Controller of Currency, not to exceed six and one-half millions of dollars, an amount probably not equal to the losses which have fallen upon the creditors of savings banks and State banks during the past year.

A fellow named Cohen, who styles himself a labor leader, spent the greater part of a day, followed by a mob of negroes, in catechising Secretary Sherman and other heads of Federal departments. In the evening he was arrested for having made a violent demonstration against the Commissioner of Agriculture. John Sherman showed Cohen "every courtesy," according to the reports. This was like John, who knew Cohen to be an idle, brawling ruffian, whose proper place is in the tread mill. It is not wonderful that there should be Cohens around when we find Shermans in office.

RADICAL RALLY.

The Meeting Yesterday--Loud Call for a Straight-out Republican Candidate.

Persuant to a call made by the Wake County Republican Executive Committee, a mass convention of Republicans assembled in Metropolitan Hall yesterday at 12 m. Capt. W. W. White called the assembly to order, and after stating the object of the call, which he said, was for the purpose of considering the propriety of neminating a candidate for Congress in this District, he requested Jno. H. Renfrow to act as Chairman, and O. Hunter, Jr., to act as Secretary.

Mr. Renfrow, upon assuming the chair, made a few remarks, after which, on motion of Capt. T. F. Lee, the temporary organization was made permanent.

On motion of Capt. Lee, a committee on resolutions was appointed by the chair, consisting of Capt. Lee, Jno. R. Caswell, Geo. A. Keith, A. Magnin and J. E. Bledsoe.

Immediately after the committee had retired, Moses A. Bledsoe, Esq., was called for and responded in a lengthy speech, in which he reviewed the Congressional race up to date, and concluding, said the Republicans could carry the district provided they nominate a straight-out Republican.

At the close of his speech the committee, through their chairman, presented the following preamble and resolution:

"The Republicans of Wake county, in mass-meeting assembled, reaffirming their allegiance to the principles of the National Union Republican party, and declaring their intention to stand by their party organization, do

Resolve, That they will attend the mass meeting of Republicans of the 4th District, to meet on the 1st day of October, 1878, to nominate a Republican candidate for Congress."

The resolution provoked considerable discussion, in which Col. I. J. Young, A. Magnin, Eaton Bledsoe, Jas. H. Jones, T. F. Lee, J. E. C. Barham, W. D. Jones and other lights participated.

At the close of the discussion, W. D. Jones offered the following amendment: "Be it further resolved, That each county shall be entitled to the votes that are allowed in district conventions by the platform of the party."

The committee accepted this amendment, after which the resolutions were adopted.

Upon motion the Convention adjourned.

Meeting of the Executive Committee.

The Executive Committee of the North Carolina Agricultural Society held their regular meeting at the Yarborough House, on Thursday evening, the 19th inst.

Col. Thos. M. Holt, President of the Society, took the chair, and the following gentlemen were present: Dr. G. W. Blacknall, Julius Lewis, Gen. R. F. Hoke, John G. Williams, Dr. P. E. Hines, Col. W. J. Hicks, John Nichols, Dr. James McKee and P. A. Wiley, Treasurer, and C. B. Denson, Secretary.

On motion of Dr. Blacknall, W. S. Primrose, Esq., of this city, was unanimously chosen as Supervisor in charge of the Glass Ball shooting, to take place at the Fair, and he was invited to provide for the organization of the competition. Three judges will be selected from different sections of the State, and the rules will be promptly announced. From the interest manifested, this will be one of the leading features of the Fair.

In order to encourage still further the prosecution of the higher branches of female education in our midst, on motion of Dr. Blacknall, it was resolved, that a handsome piano be presented to the female school making the second best display of paintings, drawings and ornamental work of all kinds, at our approaching Fair, to be given in the mode assigned to the first prize, a piano given by A. Brymer & Co., 40, Fourth street, Brooklyn, E. D. New York. This mode, as stated in the Premium List, is as follows: Any work executed within three years past may be admitted to competition, and after such prize is awarded to any school, the piano is to become the property of such pupil of the victorious schools, as shall intend to make instruction in music her profession, and shall have made the most creditable proficiency in that study, to be determined by election among her fellow pupils, under such regulations as the Principal or Faculty of the school may prescribe.

A committee of eminent citizens will be appointed as Judges, and the awards will be made by ballot.

It will be seen that two premiums of great value are here offered for the first and second display. The Principals of schools are respectfully invited to come forward in a spirit of State pride, and respond to this offer on the part of the Society. They will please address the Secretary.

Many details were considered, and the Secretary read a large number of letters making donations for the supplementary premium lists. He also reported that the State was now being canvassed thoroughly, and the various towns duly posted; also that the railroads were arranging their schedules for excursion trains throughout the State, and preparing to post all stations with time and fare, which will be very low.

The meeting then adjourned until next Thursday night.

Growth of Wheat.

Below is given a letter from one of the first farmers in this county or the State:

WAKE FOREST COLLEGE, Sept. 20.

Messrs. Kelley, Purefoy & Brewer, GENTLEMEN:—In reply to your inquiry as to the effects of "Long's Prepared Chemicals" for wheat, I would state that I sowed a ten acre cotton lot in wheat last December, using the "chemicals" in conjunction with cotton seed as a fertilizer. The yield was 150½ bushels of wheat of excellent quality. The season here, as elsewhere in the State, was a very unfavorable one for wheat. Had the season been favorable I have no doubt but the yield would have been much greater. The wheat was sown the week before Christmas, rather late for the best results. I think much of the yield is to be attributed to the "Chemicals." I regard them an excellent fertilizer.

Yours truly,
P. H. MANGUM.

The firm above named keep full supplies of this valuable fertilizer, which they can furnish promptly at any point on the R. & G. Railway. *

Notice.

Having sold my stock of goods on Fayetteville street to Mr. John W. Watson, I will still continue the grocery and commission business at corner of Jones and Dawson streets, where I have been carrying on business for the last five years.

Being grateful for past favors, I hope my friends and the public will still favor me with their patronage.

Very respectfully,
P. R. UZZLE.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural results. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been?" North Carolina in Cabinet, Field and Council.

Nathan Sargent, for many years a resident of Washington City, for quite a long period an officer of the United States Senate, and well known in his prime as an essayist over the signature of Oliver Oldschool, brought to press just before his death, which occurred a year or so since, a valuable contribution to our political history in the shape of a book entitled "Public Men and Events." That book, embracing two volumes, is devoted, in part, to the discussion of the national issues of the last half a century, but mainly to reminiscences of a personal character and to the grouping of the interesting or striking incidents that have illustrated the annals of the country, as viewed from a metropolitan stand-point or participated in by the author. The writer of this paragraph had the pleasure of Mr. [illegible] and can bear testimony to his patriotism and intelligence. His impressions of men and things are presented in a pleasant and clear style of narrative and his estimates of party leaders and political occurrences are rarely at fault. Identified with the ancient Whig school of politics and to a considerable extent with its great exponent, the old *National Intelligencer*, his views partake in some degree of an *ex parte* complexion, but his tributes to the great tribunes of the opposite creed,—notably to Mr. Calhoun and Mr. Benton,—are faithful, just and generous. We can commend the book as an instructive and entertaining exposition of American history from the time of the beginning of John Quincy Adams' administration to the outbreak of the civil war.

But what we set out, principally, to say was, that no North Carolinian can rise from the perusal of this publication without a feeling of gratified State pride in the contemplation of the conspicuous part which her sons have played on the stage of the great events of the past. While that participation comes up, in the main, only suggestively—though frequently, particularly and handsomely alluded to,—in the volumes referred to, it is so marked as to stimulate the investigations of the men of the present day, who are unfamiliar with the record of other times, into the antecedents and fame of those great men of this great old State of ours who wielded no 'prentice hand in shaping the policy and controlling the destinies of the government or illuminating the pages of its renown. The young men of the present time may not know how Nathaniel Macon presided, for many years, over the National House of Representatives,—how Iredell was thought of as the Southern champion to grapple with the Titanic Webster on the grandest arena of parliamentary debate that the world has seen,—how Mangum occupied the Vice-Presidential chair and adorned it with commanding dignity and ability; though they *may* remember how Badger and Graham and Bragg wore the Senatorial toga or sat in the Cabinet with a grandeur and fitness that made their State a bright centre in the constellation of Commonwealths.

It is a proud consolation to know that "we have not lost the breed of noble bloods," and that the heritage and examples of the past have not been dissipated or lost. North Carolina, the land of our nativity and of our best affections, is still, justly, the land of our pride and our hopes. During the late war, her sons signalized their devotion to what they believed to be the cause of Constitutional liberty by deeds of prowess, of devotion and of courage that were

"Above all Greek, above all Roman fame."

And blotting out, as we would that we could, that dark episode in her history, since the war, when bad and designing men, who bent

"The pregnant hinges of the knee,
That thrift might follow fawning,"

ruled in her councils, directed her destinies and prostituted her name, her late anna's have well-nigh equalled her olden prestige. History presents no parrallel to the lofty manhood and brave endeavor with which her people have conquered the reverses of fortune and risen superior to the weight of depression and discouragement, or to the indignant resolve and might with which they have thrown off the shackles which were attempted to be placed upon their limbs by Federal power, apostate sons and imported oppressors. Though circumstances have denied her that participation in the other departments of the government which she was wont to exercise in other days, her representation, for several years past, in its legislative councils, has been, for ability, *morale* and dignity, fully up to the standard of any other State, and has given her weight and high character. We trust and we believe that, as the result of the coming elections, there may be no depreciation of our record in these respects, but that we shall continue to send to the halls of legislation men who will fitly embody and reflect the high character of North Carolina for purity, conservatism, solidity and intelligence.

Massachusetts Oratory.

Banks, of Massachusetts, made a speech at the Radical Convention in Boston, the other day, in which there were many of those grandiose fooleries for which that asinine specimen of pomposity is so remarkable. "Sir," said he, "our united strength will leave our opponents, from whatever quarter they may come, as naked and desolate as the vulgar air." Wherein the air is naked or desolate we confess our inability to perceive, but its "vulgarity" is readily appreciated when contaminated by men of the Banks stripe. "Sir," said he, "it was for this (the preservation of the government against the wicked Democracy) that Sherman made his march to the sea, and it was for this that the sour apple-tree was cheated of its legitimate fruit." And, it might have been added, it was for this that Banks became Commissary-General of Stonewall Jackson's corps!

Dawes succeeded Banks and was quite as felicitous. Dawes is United States Senator from Massachusetts and fits the seat of Webster and Choate, or of Sumner, either, as to that matter, about as well as the massive armor of Achilles did the pigmy but braggart Thersites. He is a vain-glorious creature, with about as true a conception of the lofty duty and mission of an American Senator as a pismire has of the heights of the steeple of St. Paul's. He spoke of Banks thrilling effort and said, further, "that he counted it a great honor to belong to a party that has no personal following—that no man can command, much less swallow." The man who *could* swallow the Radical party, with its record of crime, robbery, spoliation and corruption, must have the deglutition of an anaconda, with the foul appetite of the carrion bird.

Let us give Dawes due credit, however. He did say *one* good thing, which we in North Carolina, at least, can appreciate, who remember Butler's attempted destruction of Fort Fisher by means of that famous powder-ship, the sole effect of whose explosion was to wake up a few tired Rebs who had sought to catch a hasty nap behind the works. He spoke of Ben as "a man who had amends of education to make for failures in the capture of forts by the capture of Conventions;" though we imagine that the failure in the former direction was not received with the same "applause," when it occurred, as the allusion to the ridiculous abortion occasioned in Boston the other day. Times change, however, and we change with them.

Dawes said yet one other thing which Democrats every where will do well to lay to heart. He declared, in substance, that "when the power once again passes out of the hands of the Republican party in the House of Representatives, as it already has done in the Senate," that moment the days of the party are numbered. Democrats of North-Carolina, you hear the prediction! Let no part of the responsibility for the failure of the consummation lie at our doors, who have suffered so grievously from the misrule and oppression of this party in the past!

DEMORALIZATION AND DISINTEGRATION in the Republican party are progressing with a rapidity that promises utter demolition. We speak of it now as a *National* organization. In the *South* it has been, to a great extent, disbanded, but the men who wielded its forces and monopolized its emoluments, reluctant to let go their hold on power and place, and animated by hatred of the great party which has driven them from both, seek fresh power and revenge by attempting to divide the Democracy. They find ready tools and instruments in a few disappointed politicians, consumed by vanity, selfishness and greed, who are ready and eager to sell themselves and betray the people for pelf and the gratifiation of mean and petty spite. Their reward in the long run will be that of traitors the world over,—the scorn of former friends and the contempt even of their new-found allies.

The possession of the next United States Senate, by a commanding majority, is by no means the only evidence that the Democratic party is marching to its natural destiny as the ruling power of the country. We say its "natural" destiny, because, being the party of *the people*, it must be the dominant party in a country where the people govern. No one disputes that a majority of both the popular and electoral votes of the nation was cast for Mr. Tilden in 1876, and now it appears that there are Democratic Governors and administrations in *twenty-four* out of the thirty-eight States of the Union! The continued control of the National House of Representatives, to be followed by a Democratic President in 1880, are among the certainties of the future,—IF WE ARE TRUE TO OURSELVES AND THE PARTY!

Shall we divide or quarrel now that the promised land is within reach a Shall we scatter our forces and dissipate our columns now that a united? advance will compel the surrender of the enemy's strongholds?

Ohio Republicans Alarmed.

The Republicans of Ohio are in a state of thorough alarm. A number of prominent politicians of that party joined in a call upon Judge Baxter, of the United States circuit court, to appoint supervisors of election, under authority of the odious law intended to make clear the way for Federal interference in the choice of candidates for Congress. The Democrats resisted the appointment of supervisors, and when the judge resolved to accede to the wishes of the Radicals, they refused to serve as supervisors. These Federal supervisors used to brow-beat the judges and conductors of elections in the South, and it was a small matter, but we hardly suppose the loyal North will as tamely submit to their tyranny.

The Wilson Advance says: "Turner's campaign in Nash was a complete failure—a perfect abortion. No interest was created, no enthusiasm was enkindled, and no impression whatever was made upon the honest convictions of the solid yeomanry of Nash county. At his speakings, a few persons attended, but even those few went rather out of curiosity than a desire to give aid and encouragement to a canvass, which means nothing but mischief to every interest of our people."

The Secrest Trial.

We continue, to-day, our full and interesting report of the remarkable trial for murder now progressing in McDowell county. The mystery attending this alleged crime, and the curious web of circumstantial evidence that is gradually enmeshing the accused, make the case altogether one of the *causes celebres* of our criminal annals.

A Yeates Campaign Club has been organized in the town of Washington, with Joseph Myers, Esq., as President, Messrs. W. Z. Morton, Sen., Robt. W. Minor, W. B. Cordell, Jno. Smallwood and Wm. Shaw, as Vice-Presidents, and G. W. Richardson as Secretary. It proposes to go to work in earnest with canvassers and committees.

Secretary Gorham, of the National Republican Committee, says that the most that he can promise for Mr. Blaine in North Carolina will be one speech. Well, we suppose we shall have to reconcile ourselves to *one*, though, in view of Blaine's campaign in Maine, we had fondly hoped for more.

Song of the Turner.

Howdy, howdy, howdy do?
How is your wife, and how are you?
Ain't it fits my fist as no other can,
The horny fist of the work ing-man.

BEAUTY:

OR THE

Secret of a Fair Face

AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MORE BEAUTIFUL THAN SHE NOW IS.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real b auty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and while it is as harmless as water, it is so lifelike in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON,

Dear Madam, I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the Doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine appeared to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D. LL. D., North Carolina; Geo. A. Foote, M. D., Wilmington, N. C.; Hons. J. J. Davis and C. M. Cooke, Franklin Co.

The above medicine is for sale by Pescud, Lee & Co., Wm. Simpson, and F. H. Brandt, Druggists Raleigh, N. C. or it may be ordered direct from me. For further information, enclose stamp for Circulars to

LEVER FEED CUTTER.

Hege's Improved Circular Saw Mill, is no new & dauntried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular

Lever Feed Cutter,

Is something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters, at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used in cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands Unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."

LOCAL BRIEFS.

—For other locals, see first page.

—There are 165 students at Chapel Hill, and more come in every week.

—Prayers will to-day be offered in all the churches for the yellow fever sufferers.

—Brewster has just furnished the State Penitentiary with 21 gasoline lamps, like the street lights.

—The fence in front of the new post office will be cleared away and the side walk cleared, on Monday morning.

—Maj. A. M. Lewis is repainting and refurnishing his residence on North Halifax street, in a handsome style.

—Much interest is shown in the revival at the Person street Methodist Church. The congregations have been large all the week.

—Attention is directed to the attractive advertisement of that sterling firm, Julius Lewis & Co., which appears in another column.

—Cotton continued dull yesterday, although the receipts were quite heavy. Merchants in all kinds of supplies looked dirty and happy.

—The autumn now begins to show itself, the trees are fast losing the brightness of their green, and taking on a sere and yellow look.

—Wm. G. Hill Lodge, No. 218, has a regular meeting to-morrow evening, at 7:30. All members are requested to be punctual in attendance.

—The Beaufort fishing party brought back with them some rare and beautiful specimens of bottles and a demijohn, collected on Shackleford Banks.

—The Mayor had only one case before him yesterday. A white man, who disturbed the congregation at the Person street church, was fined $20 and costs.

—Up to yesterday evening of the lock-boxes at the new post office there had been rented: of the larger size, 71; smaller, 34. Of the large drawers 15 have been taken.

—Mr. Sam Dickson, the Durham capitalist and engineer, contemplates building an elevated railway between Durham and Chapel Hill. He will build it high so as to get over the hills.

—A novel combination of a kerosene lamp and clock is exhibited at Brewster's. The lamp stand is very ornamental, and in its base is fitted a clock in miniature, whose face is no larger than a silver dollar.

—The Charlotte Observer says a good many people, besides those who belong to the military companies, will go down to the State Fair. Charlotte generally sends down a good delegation to Raleigh, and this year will be no exception to the rule.

—A busy day was yesterday, a typical Saturday. Wilmington street looked like the court house square of a county town, with its rows of country wagons and rustic buyers. It is pleasant to see the faces of many solid grangers on the streets again.

—Some one asks why is not the decayed curbing around the capitol square replaced by one of granite. It was ordered some two years ago, by the Legislature, that the stone curbing be put there, and that convicts do the work. The delay seems rather unaccountable.

—Yesterday afternoon an affray occurred on Wilmington stret, between John Johnson, a countryman, and an old white man here named Vaughn. The latter was knocked down and bruised. Whiskey was the cause of the row. Johnson was lodged in the guard house.

—Wednesday evening the Victor fire company will have an entertainment at Metropolitan Hall, for the benefit of some sick members. The Oak City Minstrels, colored, will enliven the occasion with some capital songs and burlesques. The purpose of the affair is worthy and deserves encouragement.

—The old shanty post office was sold at noon yesterday. The purchaser was Maj. J. B. Neathery, who bought the building for the county, paying therefor $25. It is to be converted into a waiting and lunch room for witnesses in attendance at court. The building will, with the court house, give the county by far the most elegant and commodious public buildings of any in the State. It is to be moved in the rear of the court house.

Personals.

Messrs. W. T. Blackwell, E. J. Parish, and Sam. Dickson, all of Durham, were at the Yarbrough yesterday,

Excursion to Fayetteville.

There were ten cars on the excursion train to Fayetteville yesterday morning. About two hundred left this city for the trip. The rate of fare was so low as to prove a great attraction to travelers.

By Himself Now.

The copartnership of Lee, Fray & Mial having expired by limitation, the business of the firm will be hereafter conducted by Mr. Ed H. Lee, at the same office. Having had large experience in the business, Mr. Lee will conduct it with credit to himself and satisfaction to his customers.

R. L. I. and Band.

Attention Company! You are hereby ordered to report at the armory tomorrow, 23rd inst., at 3.30 p. m., for parade and target practice.

By order of the Captain.

ED. F. SMITH,
Acting O. S.

Kelly, Purefoy & Brewer.

This enterprising firm of young men makes its mark upon the business world. The members are all energetic and avail themselves of every opportunity to please customers. They do a fine commission business and are prepared to handle cotton with advantage to sellers. They keep in store farm supplies, etc.

Not So.

An impression prevails among some people that no further supplies of money or clothing are needed by the yellow fever sufferers. Such is not the case, for the need is as urgent and as great as can well be imagined. Let not the hand of charity cease its ministrations, so long as an atom of comfort may be given these suffering ones over whom death's pall now droops its blackness.

Be in Time.

The post office authorities request the statement that it is important that those who desire lock-boxes and drawers in the new post office will obtain them on Monday next. The office will be moved into the new building on Tuesday, and these who have not by that time obtained boxes will have to depend on the general delivery for their letters.

Abstract of Taxes.

The State Auditor has received an abstract of listed taxables from Stokes county, by J. G. Mitchell, Register of Deeds, as follows:

General Taxes,	1,583.90
Special "	1,619.90
School "	2,872.15
General "	9,913.38

A Murderous Negro.

On Thursday, a negro living near Haywood, Chatham county, cut his wife with a knife. He also cut a negro girl. He was not satisfied with his work, and shot a negro woman, killing her instantly. He next shot another negro woman, but failed to kill her. He is still at large. The negro woman whom he killed, had come to see his wife, and as she was near the house, he, lying hid in bushes, shot her in the head.

For the Penitentiary.

The following convicts were brought in yesterday and placed behind the little bars for future use: By Sheriff Alex. McMillan, of Robeson county, two colored; Soloman Crawford, assault with intent to commit rape, 5 years; and Peter Smith, larceny, 5 years.

By Sheriff M. E. Alexander, of Mecklenburg: Adam Winecoff, colored, guilty of larceny, put in for 3 years.

Revenue Collections.

During the week just closed the following collections were made at the office of the Collector here,

Monday,	None
Tuesday,	13,165.80
Wednesday,	366.98

Market Report.

Mr. C. B. Fowler, the clever keeper of the city market, reports the following as having been exposed for sale during the past week: Beeves, 91; hogs, 38; sheep, 58. Butter has sold at 20a25c, eggs at 17½a20c, chickens 15a25. Meats during the week have been more than ordinarily good, some particularly choice beef having been exhibited by Thos. Donaldson. The supply of country produce has been small.

Messrs. Rand and Barbee Bros.

This fine firm of grocers and dealers in general supplies, have filled their store on Martin street with a choice stock of desirable goods, selected with admirable judgment and an eye both to reasonable prices and good quality. The members of the firm are all possessed of energy, and they command a fine trade, as they deserve. Their many friends and customers, both city and country, need no assurance of the reliability and standing of the firm.

Pulpit Personals.

Rev. J. M. Atkinson, D. D., will to-day preach at the Second Presbyterian church, at 11 a. m., and 4:30 p. m.

Rev. E. R. Rich, Rector of the Church of the Good Shepherd, will hold services to-day at 11 a. m., and 8 p. m. On Wednesdays, Fridays and Holy Days at 9:30 a. m.

To-day at the Person Street Methodist church the morning sermon will be by Rev. F. L. Reid, at 11 a. m; that in the evening, by the pastor, Rev. W. C. Norman, at 7.30 p. m.

In a Tight Place.

While a countryman was unloading a wagon on the Market Place yesterday, as he stood between the wheels, the horses became frightened and ran away. He was thrown on the ground, and dragged a little ways, while the wheels passed over his body and scraped his head. He could not get up as the street was so crowded with wagons. The horses were finally caught and he was picked up. His only injuries were some bruises and abrasions of the head, and he had a much soiled suit of clothes.

Quick Time.

That firemen may see with what rapidity fire apparatus may be moved, the account of an exhibition at Peekskill, N. Y., is given: "The companies gave exhibitions of their skill in getting their apparatus in working order at a fire. Senate Hook and Ladder Company of Sing Sing turned out, ran 250 yards, put up a 35-foot ladder, and had a man on top of a house in 52s. The engine got fire up in 7¼s., and Columbian Hose of Peekskill got on the ground and had 250 feet of hose out in 36¾s, beating Ossing Hose of Sing Sing by 5s."

Turpentine as a Disinfectant.

Mr. Thomas Taylor, microscopist of the department of agriculture, gives the following in the Washington Evening Star: "During the year of 1866, I made a series of experiments with essential oils, including the oil of eucalyptus globulus and the spirits of turpentine, which were published in the reports of the department of agriculture for that year. I found that the oil of eucalyptus disinfected fresh meats as effectually as carbolic acid, besides being a powerful deodorizer, and on combining it with soap found it agreeable, forming a valuable substitute for the carbolic especially in a sick room. Turpentine I also found to be a powerful deodorizer. A tablespoonful of the latter added to a pail of water will destroy the odor of cesspools instantly and in the sick chamber will prove a powerful auxiliary in the destruction of germs and bad odors, being both a disinfectant and deodorizer."

Above are given receipts for the first three weeks of the new cotton year and it is gratifying to see that notwithstanding the predicted lateness of the crop, over two hundred bales ahead of last year in receipts to this date are shown. The market is active, but prices are not so firm and closed at 9¾ to 10 cents.

Parade and Target Practice.

On Monday the Raleigh Light Infantry will parade in celebration of their postponed anniversary. At the range on the R. & G. R. R, the command will compete at the 200 yard range for the gold prize. The team will then be selected, in accordance with regulations prescribed in General Order, No. 26, lately issued. The targets to be hereafter used differ entirely from the immense ones used last fair, and are United States regulation, 22 inches by 6 feet.

The company, it is hoped will make a fine appearance. That ranks may be full, merchants will, of course, release their employees for the short time necessary. No one of the merchants or others but takes pride in the R. L. I, and desires it to do justice to the city it guards.

Magistrate's Court.

At Justice Whitaker's Court, which he now holds at the office of J. C. L. Harris, Esq., near the court house, the following cases were tried yesterday: State vs. Danson Lewis, removing crop; held in a bond of $100 to await Criminal Court.

State vs. John Mitchell, assault with a deadly weapon upon Junius Archer; committed to jail in default of $50 bond.

Street Improvements.

The character of the work now being done on East street, reflects credit on Street Commissioner Betts, as well as upon Mr. Paul Lincke, under whose supervision it is. This street was heretofore almost inpassable, like many others. But the plan adopted of working East street is so proper and thorough, that residents on other thoroughfares should see it and call for similar improvement everywhere.

For the Sufferers.

Grand Secretary J. J. Litchford, of the Grand Lodge, I. O. O. F., sent the Howard Association at New Orleans, $20 yesterday.

New Store—New Goods.

Having opened a grocery and general merchandise store in the Adams building, No. 2 Martin street, I would announce to my old customers and the public generally, that I shall keep in stock a large and varied selection of dry goods, groceries, boots, shoes, &c., &c. Buying at cash prices, as I do, I can at all times compete with the market and afford my customers all the advantages offered to the trade. I shall be glad to give strict personal attention to all business in my line. W. E. Dupree, Raleigh, N. C., Martin street, Adams building.

Prompt Reform of Bodily Evils.

The prompt reform of those bodily evils, enfeebled digestion, incomplete assimilation inactivity of the liver, kidneys and bladder, as well as of the nervous symptoms which these ailments are especially prone to beget, is always accomplished by the use of Hostetter's Stomach Bitters, a medicine accredited by physicians, pronounced pure by analysis, and eminently wholesome and agreeable. Surely such a restorative is preferable to unpalatable and indigestible mineral drugs and unsanctioned nostrums. The nation at large assuredly thinks so, judging by the unprecedented demand for the article from Maine to the Pacific, a demand now supplemented by immense orders for it received from tropical America, Mexico, the British and Spanish Colonial possessions, and elsewhere. Both at home and abroad it is recognized as a standard remedy and preventive, the decisiveness of its effects recommending it everywhere.
